

EMPLOYMENT ANNOUNCEMENT

- TITLE:** Systems Engineer
- COMPANY:** ICx Technologies, Inc.
- LOCATION:** J2 Program Office
Hanover, MD
- SALARY:** Commensurate with experience
- MIN. REQ.:**
- Bachelor's degree in engineering
 - 4-7 yrs experience in systems engineering

ICx Technologies, Inc. is looking for a Systems Engineer with experience in systems engineering on US Department of Defense (DoD) Programs to join our growing team in the Baltimore, Maryland area. The Systems Engineer will be an integral part of the design and integration team for a DoD systems development contract.

DUTIES WILL INCLUDE BUT WILL NOT BE LIMITED TO:

Perform systems engineering tasks related to Chemical, Biological, Radiological, Nuclear and Explosive (CBRNE) defense systems including:

- Systems Engineering Studies / Trades to determine solutions to technical issues
- System Design
- Requirements Documentation Updates
- System Integration and Analysis
- System Test and Analysis
- Working in coordination with the Program office and contract team members to interact with customer and end-user representatives

ABOUT ICx

ICx Technologies is a leader in the development and integration of advanced sensor technologies for homeland security, force protection and commercial applications. Our proprietary sensors detect and identify chemical, biological, radiological, nuclear and explosive threats, and deliver superior awareness and actionable intelligence for wide-area surveillance, intrusion detection and facility security. By leveraging our unparalleled technical expertise, ICx pioneers the integration of these advanced sensors into effective security and commercial solutions.

REQUIREMENTS:

- Bachelor's degree in engineering with 4 to 7 years of experience in systems engineering
- Must be able to contribute to a multi-discipline engineering team in a government-contractor collaborative environment
- Must be able to analyze the application of system-of-systems
- Must have excellent written and verbal communications skills
- Must be familiar with systems engineering processes and procedures throughout the product life cycle
- Expertise in MS Office tools, to include familiarity with MS Project
- CBRNE experience is a plus

ICx Technologies, Inc. offers an excellent benefits package, 401K and paid vacation and holidays. Interested candidates should send a resume in Word or PDF format to: careers@icxt.com or via fax to: (703) 678-2112 with the position title in the "Attention" line.
